PROFESSIONAL SUMMARY

B.Tech CSE graduate with hands-on experience building 10+ projects across Agentic AI, AI automation, full-stack development, backend engineering, and machine learning. Skilled in Python, JavaScript, LangChain, LangGraph, RAG, FastAPI, MERN, PostgreSQL, Docker, and Playwright. Built and deployed multi-agent systems, AI-powered applications, scalable APIs, and automated workflows with a focus on testing, reliability, and production readiness. Seeking roles in AI/LLM Engineering, AI Automation, Backend Engineering, or Full Stack Development.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frontend / Backend: React.js, React Native, Node.js, Express.js, Flask, FastAPI

AI / ML: Prompt Engineering, LangChain, LangGraph, RAG, Scikit-learn, Pandas, NumPy, Groq AI, Claude AI

Databases & Tools: MongoDB, PostgreSQL, MySQL, Git, GitHub, Docker, Playwright, Postman, Vercel, Render, Azure

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

INTERNSHIP EXPERIENCE

Agentic AI Intern | Innomatics Research Labs | Feb 2026 – May 2026 | Remote

- Designed and deployed multi-step agentic pipelines with LangChain, LangGraph, and RAG, enabling LLMs to autonomously retrieve, reason over, and act on real-world data.
- Built FastAPI-based AI backends with structured prompt engineering, measurably reducing hallucination rates in agent outputs.

MERN Stack Intern | EY GDS & AICTE | Edunet Foundation | Dec 2024 – Jan 2025 | Remote

- Built a production-ready MERN application end-to-end — React.js UI, Node.js/Express.js REST APIs, and MongoDB schema design — delivered under EY Global Delivery Services mentorship.
- Implemented JWT authentication, component-based architecture, and consistent API error-handling following industry-standard practices.

EDUCATION

B.Tech – Computer Science Engineering | 2023 – 2026

Vaagdevi College of Engineering, Warangal

Diploma – Electronics & Communication Engineering | 2019 – 2023

Mother Teresa Institute of Science & Technology

PROJECTS

AegisCode — Self-Healing Multi-Agent Software Engineering System | [GitHub](#) | [Live Demo](#)

- Autonomous multi-agent system that analyzes failing Python tests, generates targeted repairs, executes Pytest for verification, and reviews changes for regression risks.

Stack: LangGraph, FastAPI, Streamlit, LLMs, Pytest, Docker, Python

Axly DSA Tracker — AI-Powered DSA Learning Platform | [GitHub](#) | [Live Demo](#)

- Production-oriented DSA platform with practice tracking, competitive challenges, AI coaching, leaderboards, RBAC, and isolated multi-language code execution.

Stack: React, Node.js, PostgreSQL, Docker, Groq, Playwright, Jest, GitHub Actions

LeadDesk AI — AI-Powered Lead Management CRM | [GitHub](#) | [Live Demo](#)

- Full-stack AI CRM providing lead scoring, sentiment analysis, AI sales assistance, automated follow-up generation, analytics, and role-based access.

Stack: React, Node.js, Express, MongoDB, JWT/RBAC, Playwright, Docker, GitHub Actions

CAMX GTM Automation — AI Sales Intelligence Pipeline | [GitHub](#) | [Demo](#)

- Automated pipeline that scrapes dynamically loaded exhibitor data with Playwright, enriches company information, generates AI-personalized outreach lines, and exports results to Google Sheets.

Stack: Python, Playwright, Groq AI, Google Sheets API

RadiantSkincare-v2 — AI Personalized Skincare Platform | [GitHub](#)

- AI-powered platform combining ResNet50 computer vision, ML-based product recommendations, skincare routines, screening history, ingredient intelligence, and climate-aware guidance.

Stack: React, Node.js, Express, Flask, PyTorch, scikit-learn, MongoDB, JWT, OTP authentication

Product Catalog API — High-Performance FastAPI Backend | [GitHub](#) | [Swagger](#)

- Production-oriented backend supporting 200K+ products with snapshot-stable cursor/keyset pagination, optimized PostgreSQL indexes, async database access, migrations, and integration tests.

Stack: FastAPI, PostgreSQL, Async SQLAlchemy 2.0, Alembic, Docker, Pytest

CERTIFICATIONS

Python Programming – Cisco Networking Academy | Oracle Database – Oracle University | MongoDB – MongoDB University
